REASONS FOR ALLOWANCE

1. Claims 37-72 will be allowed.

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not provide for nor suggests providing for as follows:

Storing collaborative information; a plurality of common message data models comprising links and metadata extracted from the collaborative information; and a plurality of common primitive message exchange sequences comprising a combination of at least two common message data models in a directory (see, e.g., applicant's published specification, paragraph [0100]-[0109]);

Initiating the first common primitive message exchange sequence by forming and sending a first annotated message based on the first common message data model, the first annotated message comprising links and metadata extracted from the collaborative information stored in the directory; and

Receiving, in response to the first annotated message, a second annotated message based on the second common message data model (see, e.g., applicant's published specification, paragraph [0076]-[0078]).

The closest prior art (Johnson, Patent Publication No. 2003/0023679) discloses a computer-implemented method of network collaboration through embedded annotation

and rendering instructions to generate, transmit, and render collaborative content is disclosed. The method includes the steps of generating collaborative content including a base document and at least one collaborative content element, rendering the collaborative content, and transmitting the collaborative content between client workstations. A further step may include annotating the collaborative content by adding another collaborative content element. Advantageously, no dedicated software is needed for the client workstation and the client workstation may be a personal computer equipped with Internet browser software, (see, e.g., paragraph [0027]).

For these reasons, in conjunction with the other limitations of the independent claim, puts this case in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
